## Building Based Goals

## Goal(s): Kindergarten - Mathematics

- Increase the percentage of SWD meeting or exceeding standards in Oral Counting and Number Identification.
- Increase the percentage of students in the Economically Disadvantaged group across all mathematical measurements in Oral Counting and Missing Number Identification.

## Focus Area: Instruction \& Curriculum (School Based Planning Teams - Grade Level/Department Meetings - Supervision)

## Goal(s): 1 ${ }^{\text {st }}$ Grade - Mathematics

- Students with disabilities will increase their oral counting with $80 \%$ proficiency meeting benchmark by EOY.
- Students with disabilities will increase their number identification with $80 \%$ proficiency meeting benchmark by EOY.

## Goal(s): $2^{\text {nd }}$ Grade - Literacy

- $80 \%$ of students with disabilities will increase their AIMS oral reading fluency to meet or exceed grade level proficiency.
- $80 \%$ of students who are economically disadvantaged will increase their AIMS oral reading fluency to meet or exceed grade level proficiency.
Action Plan
Include targeted instructional practice to examine
(Problem of Practice- include instructional implications)
- Use of systematic and explicit phonics instruction (instruction in decoding and encoding).
- Use CKLA curriculum.
- Implement science of reading practices.
- Utilize Data Wise protocol to analyze data and plan next steps of instruction, implement and assess.
- Implementation of the K-12 instructional model.
- Utilize the latest evidence based phonemic awareness best practices to drive instruction (focus on blending and segmenting words from decodable texts).
- Implementation of independent reading time.
- Implementation of Humanities curriculum.

Goal(s): 3rd Grade - Literacy
Fluency: All students in Grade 3 will increase their reading fluency through systematic instruction and progress monitoring. Teachers will focus on moving on-level students to increase exceeding percentage from $20 \%$ to $30 \%$.

- Comprehension: Students in Grade 3 will use inferential thinking to answer questions about the text using relevant text details.

## Focus Area: Instruction \& Curriculum (School Based Planning Teams - Grade Level/Department Meetings - Supervision)

## Goal(s): 3 ${ }^{\text {rd }}$ Grade - Mathematics

- Students in Grade 3 will increase their math proficiency in math fluency and place value and apply their understanding to multiplication and division.

Include targeted instructional practice to examine (Problem of Practice- include instructional implications)

- Utilize the RTI model for enhanced differentiation to close gaps for students.
- Utilize current instructional model to guide planning and execute lessons.
- Utilize Data Wise protocol to analyze data and plan next steps of instruction, implement and assess
- Provide opportunities for math talk and productive struggle while maintaining high expectations for all.
- Explicit vocabulary instruction in mathematics
- Administer Fact Fluency assessments to gather information of strengths and to inform planning.
- Daily math fluency sprints with student goal setting and tracking
- Utilize Xtra Math to support mathematical fluency.
- Increase use of Number Talks as a vehicle for students to discuss multiple ways to solve a problem. This will also allow teachers to catch any misconceptions (formative assessment measure)
